## 2012 STUDENT APPLICATION

### MANCHESTER SCHOOL OF TECHNOLOGY

The new MST model high school will have a competency-based education providing rigorous academics in combination with career technical education (CTE) classes. This will allow students to demonstrate their knowledge and give them the ability to progress at their own pace through a customized learning plan. The new MST model does not intend to use "grade" levels in the traditional sense. We are planning to give students the opportunity to move through a more flexible three to five year structure. This model will enable some students to graduate with a diploma in as little as three years, while other students may be enrolled for up to five years as part of an "early college" model. This can be accomplished through learning opportunities where students will attain a greater portion of their academics directly in the CTE program through application and project-based learning. This will lead to field experience, job shadowing, internships, and early college credit as they are deemed proficient to move into these settings by their teams of teachers.

### **APPLICATION SIGNATURES**

My son/daughter has permission to apply to Manchester School of Technology. I understand that attending an MST Orientation meeting by a parent/guardian and the student is highly recommended. This meeting will be held at the end of August 2012, prior to school opening. My child will be required to attend MST for one to two days for career and academic assessments for scheduling purposes.

*Declaration of Intent and Student Record Release:*

With signature of this application permission is given to Manchester School of Technology to review school records.
